

## Medical Team Headed for Benin

A medical team will leave for Benin, West Africa on January 3rd. Our US based team will rendezvous with a Cameroon based teammate in Niamey, Niger and head down to Benin from there. On January 8th the team will be joined by to more members who will assist with the training. In the ensuing weeks the team will serve in various villages as well as at the main clinic site in Boiffo. The team will focus on treating patients as a means of spreading the Gospel and doing medical training to prepare national staff to serve in the clinic ministry.

### Prayer requests:

- We would have an effective testimony for our Lord Jesus Christ
- That God would be preparing the hearts of the many who will be treated in the clinics
- That the Gospel presentation might be bold and clear
- For the logistical aspects of getting the team and supplies in and out of the country
- Good health and safety of the team while in Benin
- Wisdom and effectiveness in treating physical needs
- Strength and grace for the teams missionary and national hosts
- Effectiveness in training and preparing national staff for medical work and for ministry work
- Wisdom for both the teaching physicians and the medical students
- For God to be glorified in each aspect of the ministry

Your prayer support is integral to the success of the ministry. Thank you for your prayers and support.
